This tree-friendly pdf works best on screens and not paper.

KONECRANES

HOW HAVE

Bees survived for over 100 million years?

Amongst their many wonderful **adaptations** is the waggle dance: a complex information exchange that describes the location of a new nectar source, with a directional accuracy of 10°.

Technical & Operator Training

Comprehensive training courses for both technicians and operators that transfer valuable skills and insights to your team.

Communication. Evolved.

THE KONECRANES TRAINING APPROACH

Flexible: We can train your team on-site or at our training facilities.

Modular: Trainees can switch and exchange modules depending on their experience and needs.

Quality: Our trainers have an average of 10+ years experience with the specific product.

Recognized: A Konecranes training certificate is recognized throughout the industry.

BENEFITS

- Modular, practice-oriented program ideal for both beginners and experienced operators.
- Operator training instructors with more than 20 years' experience.
- On-site, on your own machine.
- Stationary MHC Simulator in Düsseldorf and mobile version for on site trainings.
- Our preemptive operator assessment can save time and resources.
- We can adapt our world-class operator training to almost any port equipment.

Operator Training Menu

- **Crane Operator Selection Test**
- **MHC Simulator**
- **Mobile Harbor Crane**
  - MHC Crane Operator Assessment
  - MHC Operator Trial Course
  - MHC On-Site Operator Course
- **AGV**
- **Straddle/Sprinter Carrier**
- **Ship-to-Shore Crane**
- **RTG**
- **RMG/RTG ROS**
- **Boxporter RMG**

Crane Operator Selection Test

This method provides a **first and quick indication** of the natural crane operation abilities of candidates. Useful in **pre-selecting candidates** that should follow more in-depth crane operator training.

- Available on Simulator
- **Number:** Max. 20 participants
- **Duration:** 1,5 hours per participant
- **Requirements:** Good hand-eye coordination
- **Location:** Any Konecranes location or on site
- **Site conditions:** Training room needs to be provided.

MHC Operator Training

MHC CRANE OPERATOR ASSESSMENT

Each trainee must **solve prescribed problems** on the crane simulator. The tasks are specially designed to track the individual performance of each trainee, making an **accurate assessment** of their crane operation abilities.

- Available on Simulator
- **Number:** Max. 4 participants
- **Duration:** 1,5 hours per trainee
- **Requirements:** Good hand-eye coordination
- **Location:** Any Konecranes location or on site
- **Site conditions:** Training room needs to be provided.

MHC OPERATOR TRIAL COURSE

Inexperienced crane operators: Solid fundamentals of handling with harbor cranes.

MHC operators with previous experience: Enhance their handling performance.

Crane operators on other crane types: Solid introduction to the Konecranes Gottwald harbor cranes.

- **Number:** Max. 2 participants
- **Duration:** 5 days
- **Requirements:** Good hand-eye coordination
- **Location:** Konecranes training center Düsseldorf.

MHC ON-SITE OPERATOR COURSE

Crane operators receive **practical tips and tricks** for safe, efficient handling in familiar surroundings, **on their own crane**. Experienced crane operators **introduced to the special features** of Konecranes Gottwald harbor crane.

- **Number:** Max. 2 participants
- **Duration:** 5 days per participant
- **Requirements:** Good hand-eye coordination
- **Location:** On site
- **Site conditions:** Training room and presenter tools need to be provided.
  MHC must be available.

Back to Menu

AGV Operator Training

AGV

The AGV is the **automated** container transport vehicle. This training provides the necessary knowledge and skills to **operate** an AGV in a safe way.

- **Number:** Max. 6 participants
- **Duration:** 1,5 days
- **Requirements:** Good hand-eye coordination
- **Location:** On site
- **Site conditions:** Training room and presenter tools need to be provided.
  An AGV and a test field must be available.

Back to Menu

Straddle/Sprinter Carrier Operator Training

Training

STRADDLE/SPRINTER CARRIER OPERATOR TRAINING

The training provides the **knowledge and skills** to operate a straddle or sprint carrier in a **safe and productive** way.

- **Number:** Max. 2 participants
- **Duration:** 5 days
- **Requirements:** Good hand-eye coordination
- **Location:** On site
- **Site conditions:** Straddle or Sprinter Carrier and a driving area must be available.

Back to Menu

Ship-to-Shore Crane Operator Training

SHIP-TO-SHORE CRANE OPERATOR TRAINING

The training provides the necessary **knowledge and skills** to handle and operate a ship-to-shore crane in order to **load and unload** ships in a safe and productive way.

- **Number:** Max. 2 participants
- **Duration:** 20 days
- **Requirements:** Good hand-eye-coordination
- **Location:** On site
- **Site conditions:** STS must be available.

Back to Menu

RTG Operator Training

RTG OPERATOR TRAINING

Training provides the necessary **knowledge and skills** to handle and operate a rubber-tired gantry crane (RTG) in order to load and unload containers in a **safe and productive way**.

- **Number:** Max. 2 participants
- **Duration:** 5 days
- **Requirements:** Good hand-eye-coordination
- **Location:** On site
- **Site conditions:** RTG must be available for training.

Back to Menu

RMG/RTG ROS Operator Training

RMG/RTG ROS OPERATOR TRAINING

While Konecranes Remote Operating Stations are designed as closely as possible to **actual crane cabins and controls**, there are nonetheless a number of **new and unfamiliar technologies and techniques**. This 2-day course introduces experienced crane operators to the ROS desk, controls, safety features and visibility systems.

- **Number:** Max. 8 participants
- **Duration:** 2 days
- **Requirements:** For on-site training a ROS must be available
- **Location:** Odessa, Ukraine or on site.

Back to Menu

RMG Operator Training

RMG OPERATOR TRAINING

Training provides the necessary **knowledge and skills** to handle and operate a rail-mounted gantry crane (RMG) in order to load and unload containers in a **safe and productive way**.

- **Number:** Max. 2 participants
- **Duration:** 5 days
- **Requirements:** Good hand-eye coordination
- **Location:** On site
- **Site conditions**: RMG must be available for training.

Ports. Evolved. | KONECRANES
