Don't see your equipment here?

We are always able to design tailored training courses.

The Konecranes Training Approach

Flexible: We can train your team on-site or at our training facilities.
Modular: Trainees can switch and exchange modules depending on their experience and needs.
Quality: Our trainers have an average of 10+ years experience with the specific product.
Recognized: A Konecranes training certificate is recognized throughout the industry.

Benefits

- Modular, practice-oriented program ideal for both beginners and experienced operators.
- Operator training instructors with more than 20 years' experience.
- On-site, on your own machine.
- Stationary MHC Simulator in Düsseldorf and mobile version for on-site trainings.
- Our pre-emptive operator assessment can save time and resources.
- We can adapt our world-class operator training to almost any port equipment.

Crane Operator Selection Test

This method provides a first and quick indication of the natural crane operation abilities of candidates. Useful in pre-selecting candidates that should follow more in-depth crane operator training.

- Available on Simulator
- **Number:** Max. 20 participants
- **Duration:** 1,5 hours per participant
- **Requirements:** Good hand-eye coordination
- **Location:** Any Konecranes location or on site
- **Site conditions:** Training room needs to be provided.

Back to menu

MHC Simulator

MHC Simulator

- MHC equipment only
- Full simulator at Konecranes Düsseldorf, Germany
- Also available as a compact simulator for on-site training
- Risk-free training for beginners and possibility to train dangerous situations
- Training without crane occupation and operating costs.

MHC Operator Training

MHC Crane Operator Assessment

Each trainee must **solve prescribed problems** on the crane simulator. The tasks are specially designed to track the individual performance of each trainee, making an **accurate assessment** of their crane operation abilities.

- Available on Simulator
- **Number:** Max. 4 participants
- **Duration:** 1,5 hours per trainee
- **Requirements:** Good hand-eye coordination
- **Location:** Any Konecranes location or on site
- **Site conditions:** Training room needs to be provided.

MHC Operator Trial Course

Inexperienced crane operators: Solid fundamentals of handling with harbor cranes.
MHC operators with previous experience: Enhance their handling performance.
Crane operators on other crane types: Solid introduction to the Konecranes Gottwald harbor cranes.

- **Number:** Max. 2 participants

- **Duration:** 5 days
- **Requirements:** Good hand-eye coordination
- **Location:** Konecranes training center Düsseldorf.

MHC On-Site Operator Course

Crane operators receive **practical tips and tricks** for safe, efficient handling in familiar surroundings, **on their own crane.** Experienced crane operators **introduced to the special features** of Konecranes Gottwald harbor crane.

- **Number:** Max. 2 participants
- **Duration:** 5 days per participant
- **Requirements:** Good hand-eye coordination
- **Location:** On site
- **Site conditions:** Training room and presenter tools need to be provided.
  MHC must be available.

Ship-to-Shore Crane Operator Training

Ship-to-Shore Crane Operator Training

The training provides the necessary **knowledge and skills** to handle and operate a ship-to-shore crane in order to **load and unload** ships in a safe and productive way.

- **Number:** Max. 2 participants
- **Duration:** 20 days
- **Requirements:** Good hand-eye-coordination
- **Location:** On site
- **Site conditions:** STS must be available.

Back to menu

RTG Operator Training

RTG Operator Training

Training provides the necessary **knowledge and skills** to handle and operate a rubber-tired gantry crane (RTG) in order to **load and unload** containers in a safe and productive way.

- **Number:** Max. 2 participants

- **Duration:** 5 days
- **Requirements:** Good hand-eye-coordination
- **Location:** On site
- **Site conditions:** RTG must be available for training.

Back to menu

RMG/RTG ROS Operator Training

RMG/RTG ROS Operator Training

While Konecranes Remote Operating Stations are designed as closely as possible to **actual crane cabins and controls**, there are nonetheless a number of **new and unfamiliar technologies and techniques.** This 2–day course introduces experienced crane operators to the ROS desk, controls, safety features and visibility systems.

- **Number:** Max. 8 participants
- **Duration:** 2 days
- **Requirements:** For on-site training a ROS must be available
- **Location:** Odessa, Ukraine or on site.

Back to menu

RMG Operator Training

RMG Operator Training

Training provides the necessary **knowledge and skills** to handle and operate a rail-mounted gantry crane (RMG) in order to load and unload containers in a **safe and productive way.**

- **Number:** Max. 2 participants
- **Duration:** 5 days
- **Requirements:** Good hand-eye coordination
- **Location:** On site
- **Site conditions:** RMG must be available for training.
