

KCI RTG

Konecranes RTGs are typically ordered by demanding, high volume terminals. We have over 250 no-hydraulic RTG references all around the world, and the KCI RTG is the market leader for 50 ton capacity cranes. A high number of repeat orders demonstrates high customer satisfaction. KCI RTGs handle heavy loads efficiently and economically, resulting in a low total cost of ownership.

**MAXIMISE YOUR INCOMES \$/BOX
WITH KONECRANES RTG**

More Handled Boxes:

- ✔ Excellent Load Control
- ✔ High Speed & 50 ton Capacity
- ✔ GPS-based Autosteering & Container Positioning

Lower Operating Costs:

- ✔ No Need for Hydraulic Oil or Spares
- ✔ No Need for Hydraulic Maintenance Work and Corresponding Downtime
- ✔ Lower Fuel Consumption
- ✔ Prolonged Tire and Rope Change Intervals

Hunting High

Highest Operating Efficiency, Longest Lifetime and Lowest Maintenance Costs with Konecranes RTG.

✔ Unique Performance

- Excellent load control and sway prevention
- Accurate movements
- Trimming done without additional equipment
- GPS-based autosteering and container positioning system
- High speed & 50 ton capacity

✔ Outstanding Reliability and Safety

- Well-proven design
- High quality components
- No hydraulics
- Reduced components
 - No separate wheel turning mechanism
 - No separate trim mechanism

✔ Less Maintenance

- No hydraulics
- Easy access to all components
- Flange mounted, maintenance free AC motors
- Wheels rolling when turning
- Low tire wear
- No chains or sprocket drives

✔ Environmentally Sound

- No hydraulics – No oil leakages
- Lower fuel consumption
 - Less emissions
- Prolonged tire & Rope change interval
- Less wearing mechanical parts
