# Main modules, all hydraulics-free

### Operating concept

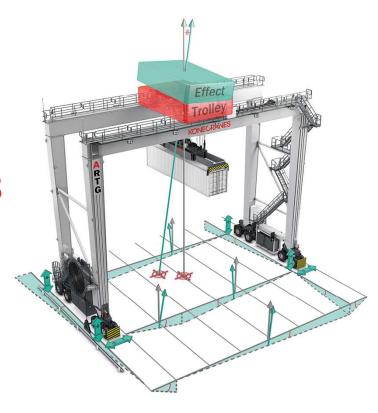

#### Smarter cabin and remote operation

The smarter cabin provides the operator with excellent visibility and comfort. The operating concept is consistent across cabin operation and remote operation, with a user interface that works identically across the two modes. It is remarkably easy to move to remote operation: the crane operators just move into an office working environment.

# Better tolerance for uneven yard surfaces

- Bogies with pinned joints
- · Steel structure with pinned diagonals
- · Dual hoist machinery trolley
- Four-wheel trolley drive
- Tolerates even ±1 ft (=30 cm) difference in ONE corner in static condition
- With Active Load Control, a prerequisite for successful automated operation

**Konecranes** 

#### **Konecranes RTG**

## Trolley

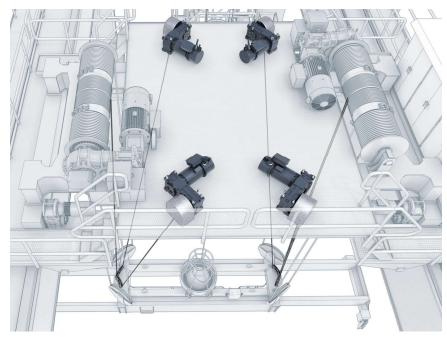

# ACTIVE LOAD CONTROL (ALC) Integrated sway prevention and fine positioning system

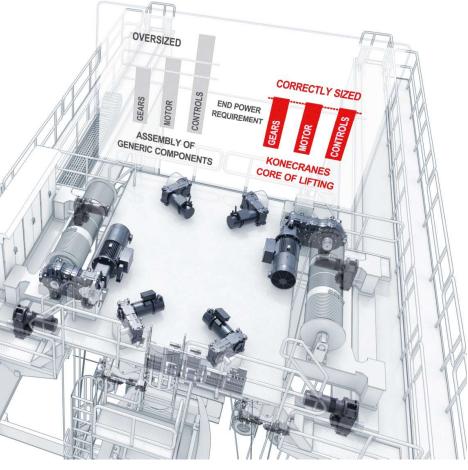

#### The container:

- · Does not sway
- Can be fine-positioned in all directions without moving gantry or trolley
- Is fully controlled during the entire work cycle

#### You get:

- Faster and safer work cycles
- Reduced energy consumption
- Reduced crane wear

#### **Core of Lifting**

- Integrated package of gearbox, motor and controls that is designed and manufactured by Konecranes in-house specifically for cranes and lifting motions
- Over 1,000,000 gearboxes made and delivered since 1933
- Over 2,000,000 motors made and delivered since 1933

### Technical data

Main parameters	16 wheels	8 wheels			
Lifting capacity	40LT, 50LT				
Performance	Up to 40+ containers/hr	Up to 40+ containers/hr			
Main dimensions, vertical	1-over-3 up to 1-over-6				
Main dimensions, horizontal	5 + truck lane up to 8 + truck lane				
Simultaneous movements	2 or 3 movements				
Speeds	Active Load Control (ALC)	Electrical anti-sway			
Lifting speed with full load	Up to 31 m/min	26 m/min			
Lifting speed without load	62 m/min	52 m/min			
Trolley travel speed with & without load	Up to 82 m/min	70 m/min			
Gantry travel speed	Up to 135 m/min	Up to 130 m/min			
Sway prevention system	Active Load Control (ALC)	Electrical anti-sway			
Performance	40+ containers/hr	30+ containers/hr			
Automation readiness	Full	Partial			
Fine positioning	±250mm (4 directions)	Optional spreader side-shift			
Trim	±5°	±5°			
Skew	±5°	±5°			
Bogies	16 Wheels	8 Wheels			
Tire size / pressure, bar	14.00 x 24 / 10	18.00 x 25 / 10			
Wheel load, tons, with 1-over-5 and 6 + truck lane, max. load, no wind	18.0	31.5			
Runway width	Min. recommended 1.8m	Min. recommended 1.8m			
Wheels driven	50% (8 wheels)	50% (4 wheels)			
Main options					
DGPS Auto-steering	Dual-antenna technology for accurate real-tim rapid signal recovery	ne heading info and			
Diesel Fuel Saver System	Two-step or variable speed application				

## Smart Features, components, power options

Most common Smart Features	
Auto-steering	Keeps RTG on a pre-programmed, straight path creating "virtual rails" +/-100mm
Auto-positioning	Automatically stops gantry & trolley over next container target slot based on "hold to run" approach (requires Auto-steering)
Auto-truck Guiding	Automatically guides the truck to position under the RTG in line with the bay, like entering a car wash
Stack Collision Prevention	Helps crane operator (or remote operator) prevent container collisions and knockdowns when a container is moved in bay direction
Truck Lift Prevention	Automatically stops hoisting motion if a truck lift is detected
Auto-path Optimizing	Increases container handling efficiency in the stack
Auto-TOS Reporting	Enables accurate yard inventory
Core of Lifting components*	16 wheels and 8 wheels
Motors*	Konecranes
Gear reducers*	Konecranes
Drive system*	Konecranes/Danfoss drives
Programmable Logic Controller (PLC)	Siemens

*Extended	5-V02r	warranty	available

Power supply options	Primary power source	Secondary power source
Diesel engine	X	X
Cable reel 3-phase, 50/60 Hz, 1-10kV	X	
Busbar, 460-500V	X	
Hybrid	X	
Battery pack	X	X
Auxiliary genset		X

Konecranes is a world-leading group of Lifting Businesses™, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. Konecranes provides productivity enhancing lifting solutions as well as services for lifting equipment of all makes. In 2019, Group sales totaled EUR 3.33 billion. Including MHE-Demag, the Group has around 18,000 employees in 50 countries. Konecranes shares are listed on the Nasdaq Helsinki (symbol: KCR).
