CXT COMPACT

KONECRANES[®]
Lifting Businesses™

Top Quality for multiple purposes **CXT Compact**

TOP QUALITY FOR MULTIPLE PURPOSES

In production operations requiring occasional use of a crane, a reliable, basic tool is usually sufficient. This is also true for a variety of maintenance tasks, when a second crane is needed to support the primary crane, and for various installation and assembly duties.

The new Konecranes CXT Compact is just the correct crane for such applications. It has the same basic structure as all Konecranes cranes, known for their quality and features, but it is equipped with features for basic requirements. Even so, the basic model comes standard with features like energy-chain-type power supply and radio controller.

It is the right choice for production operations that don't spend a lot of time on lifting but when they do, they need a crane that performs reliably.

KONECRANES CXT COMPACT

- Energy Chain power supply standard in CXT Wire Rope Hoist
- Radio control always included
- Loads up to 20,000 kg (CXT2-CXT5)
- Also available with chain hoist with loads up to 5000 kg
- Simple structure means easy maintenance

ATTENTION TO DETAIL

Konecranes CXT Compact has the same basic structure as other cranes in the CXT series. The components are equally reliable and the assembly is subject to the same quality criteria. Konecranes is introducing the new CXT Compact product version with more customer centric thinking. Now there is no need to compromise, since you can get proven and tested Konecranes quality for the same price.

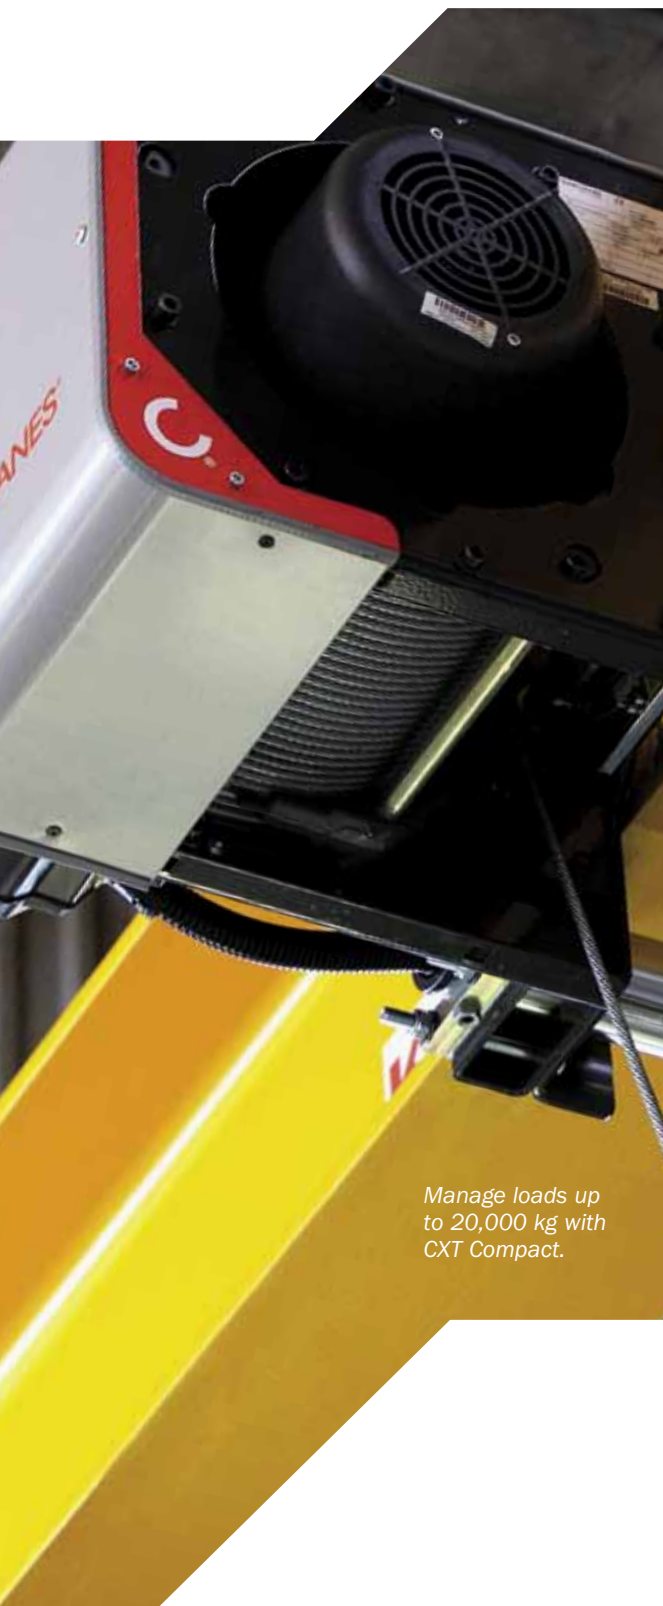

The new Konecranes CXT Compact is a high-quality basic crane made for basic needs. Designed for indoor use, this crane boasts a capacity of 20,000 kg (5,000 kg for the chain hoist version).

KONECRANES CXT COMPACT

- Available 2-speed hoisting motion
- Inverter-controlled horizontal movements (trolley & bridge)
- Single girder cranes up to 20m spans
- Single trolley configuration
- Indoor use only
- New industrial design of CXT Wire Rope Hoist

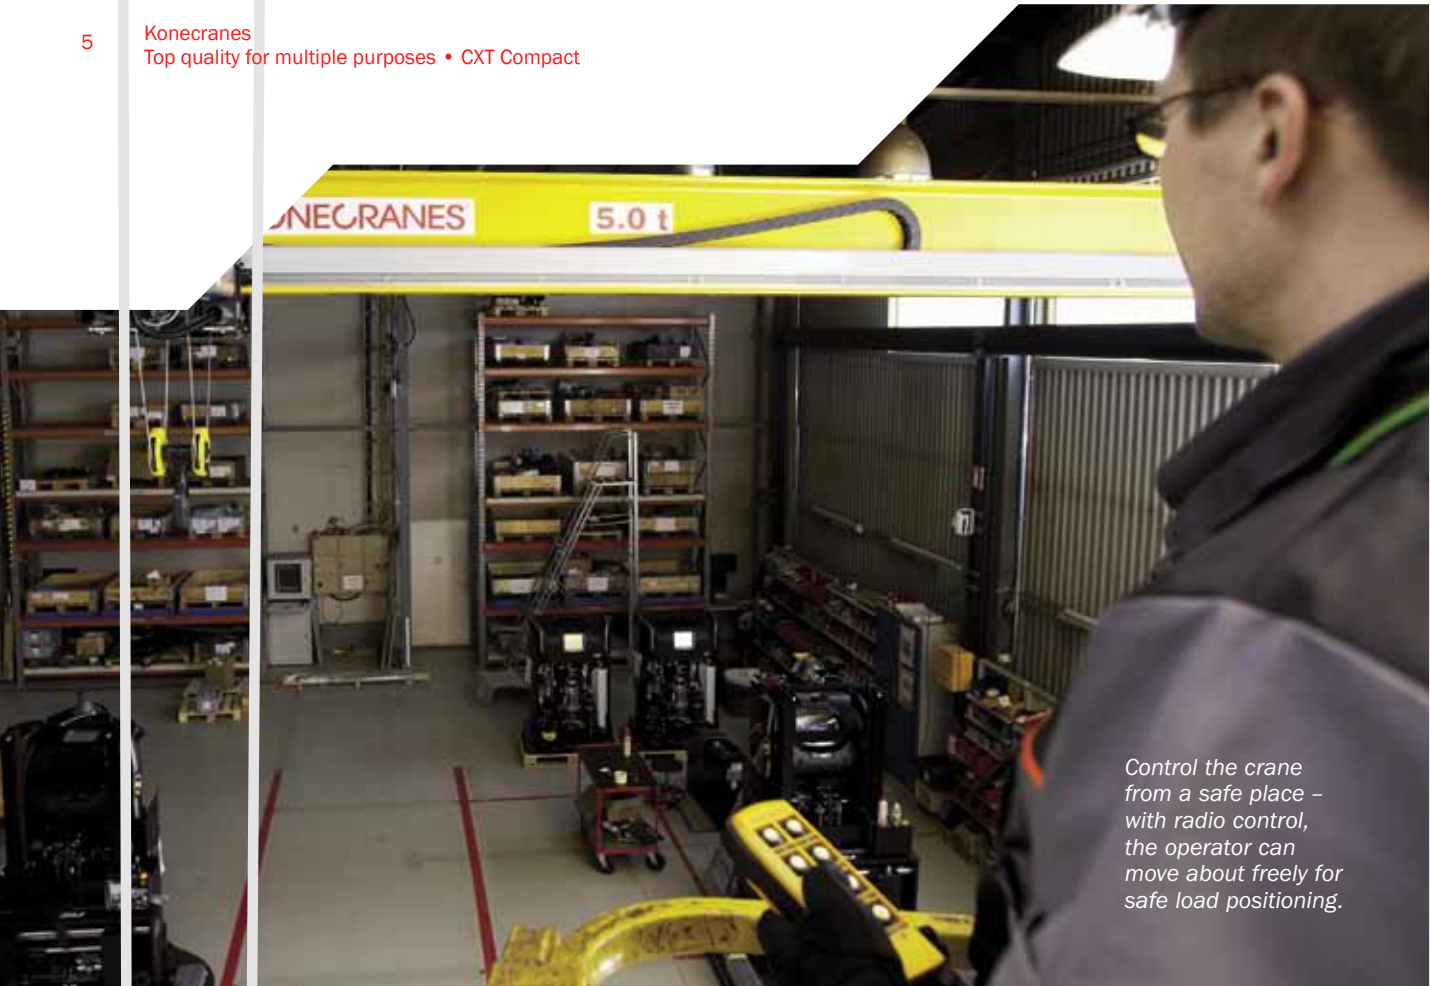

New industrial design
– CXT Wire Rope Hoist.

Manage loads up
to 20,000 kg with
CXT Compact.

When your lifting needs increase
– Konecranes products grow with you.

Control the crane from a safe place – with radio control, the operator can move about freely for safe load positioning.

Konecranes Energy Chain for hoist power supply is a modern way to install cables to your crane.
