

HOW HAS

The Sandhill Crane become the oldest bird species on earth?

They are engineered to endure. Over the last 10 million years only slight **adaptations** to their wingspan have been required to keep the species thriving.

Crane Modernizations

Similarly, the steel structures of most older cranes retain their integrity, and require mostly small adjustments in reach, location or machinery to increase the crane's longevity.

Endurance. Evolved.

Any Brand

This technology can be applied to all Konecranes STS cranes, as well as other crane brands.

ADAPT AND THRIVE

Konecranes is the premier **port services** provider to brownfield terminal developments. Our range of crane modernizations will enable your fleet to adapt to a fast-changing environment. Welcome to your **evolution**. Small, incremental changes that enable existing fleets to continue to adapt and thrive.

Complex & Custom Modernizations

Our dedicated Port Services engineering team offers a wide range of complex port crane modernizations and relocations.

This technology can be applied to all Konecranes cranes, as well as **other crane brands**.

CUSTOM MODERNIZATIONS

- Complex once-off modernization cases. For example:
- Crane height and outreach modifications
 - Lifting capacity increases
 - Operational mode changes (e.g. from containers to bulk)
 - Machinery upgrades
 - Crane relocations
