

TRUCONNECT

# It's all about Digitalization

**GET ACCESS TO  
YOURKONECRANES.  
COM**

- Look and compare the assets performance and operational KPI's
- Monitoring lift trucks usage and detect issues to optimize their performance, increasing reliability and availability, minimizing costs and operational risks.

## Keep an eye on your lift trucks

- Monitor and maintain safety in operations;
- Get SMS/email notifications and reports of the most frequent fault messages and alarms, including category, total duration, first and last occurrence and description. It enables easier identification of potential maintenance future issues, and in turn reduces downtime;
- Use the asset maintenance forecasting application to reduce downtime and do the maintenance when needed;
- Monitor the performance and shocks related to load handled but also due to the driving operations;
- Enhance driver performance by identifying training needs for more economical driving and less impact on the environment.

### How to order

Send the lift truck's serial number(s) to your Konecranes Lift Trucks distributor to get your offer

## Turn your Lift Truck Smart Connected

How are your lift trucks doing? Quite hard to guess, right? Well, at Konecranes Lift Trucks we have an easy way to discover that.

Activate TRUCONNECT® Remote Monitoring and track their conditions, usage in near real time and get insights to optimize operational efficiency and increase productivity.
