STATIC WEIGHING SYSTEM

IMPROVE EFFICIENCY AND PRODUCTIVITY BY LETTING YOUR KONECRANES REACH STACKER DO THE WEIGHING

As shippers are required to provide verified container weight before loading a container onto a ship, you can now handle the daily operations in a more efficient way with the complete set of data registered directly in the Terminal Operations System (TOS) or yourKONECRANES.com customer portal.

HOW DOES IT WORK?

The operation is very simple lift the container and stand still for 5 sec. Tap the link button on the MD4 to link the weighing data to the container ID.

BENEFITS.

- System measures hydraulically:
 - 1% full scale accuracy
 - Measurement made in < 5 seconds
- Automated VGM (=Verified Gross Mass) declarations

WHAT'S IN THE PACKAGE.
