

# Fast, precise material handling

# The ultimate in adaptability

Konecranes jib cranes are suitable for almost any kind of workstation—from small workshops to large factory assembly lines, storage areas and loading bays.

Whether you need to lift a single piece of equipment or add capacity to an entire process, a wide range of options makes the Konecranes jib crane a good fit in all kinds of industrial facilities.

## Safe, accurate load handling

The Konecranes jib crane features an advanced ergonomic design and adjustable features to enhance operator safety and experience. It has a load capacity of up to 2,000 kg and a slewing motion that can reach 300° with a pillar jib and 270° with a wall-mounted jib. You have several different ways to fix the jib to the wall or the floor and can choose from a broad selection of hoist units—such as electric chain hoists, pneumatic lifting devices and manual hoists.

Jib cranes can be an integral part of any plant process that requires both speed and accuracy. They are easy to install and relocate plus the flexibility and durability of this crane lets you use it in other areas of your facility when your work environment changes.

LOAD		OUTREACH							
		2	3	4	5	6	7	8 (m)	
(kg)	(lbs)	6.5	9.5	13	16	19.5	22.5	26 (ft)	
2000	4400								
1600	3525								
1250	2750								
1000	2200								
500	1100								
250	550								
125	275								

## Hoist options

Underbraced I-beam with a manual chain hoist.

Underbraced, wall-mounted, I-beam with a Konecranes C-series electric chain hoist.

**01 MOTORIZED TROLLEY WITH EASY LOAD HANDLING**  
Ideal for heavier and larger loads.

**02 VARIOUS DESIGNS FOR JIB ARMS**  
Based on your requirements.

**03 EASY AND STEADY SLEWING**  
Robust pivot bearing and adjustable slewing resistance. Manual slewing motion available for all jib crane types and motorized slewing for jibs with I-beam arms.

**04 ROBUST FESTOONING**  
Easy running with reliable cable carriers.

**05 POWER SUPPLY**  
External power supply cables can be attached to pillars from below, the side, or above.

**06 IMPROVED SAFETY**  
Standard on/off safety switch on pillar jibs.

**07 FLEXIBLE ANCHORING**  
For foundations with cast-in anchors or by adapting to existing concrete floor with base plate and chemical anchors.

**08 SLEWING LIMITER**  
Allows you to adjust the rotation every two degrees, and the clamp-fitted design enables it to be installed after installation.

**09 OPTIMIZED WORKSPACE**  
Wall-mounted Jib cranes can be operated in tight working areas and be folded out of the way when not in use.

**10 EASY INSTALLATION**  
Wall-mounted jibs can be mounted easily to existing wall columns using bracket clamping arrangements for various column sizes.

**11 SMOOTH RUNNING**  
Manual and motorized trolleys available.

Konecranes is a global leader in material handling solutions, serving a broad range of customers across multiple industries. We consistently set the industry benchmark, from everyday improvements to the breakthroughs at moments that matter most, because we know we can always find a safer, more productive and sustainable way. That's why, with around 16,600 professionals in over 50 countries, Konecranes is trusted every day to lift, handle and move what the world needs. In 2023, Group sales totaled EUR 4.0 billion. Konecranes shares are listed on Nasdaq Helsinki (symbol: KCR).
