CXT EXPLORER

LIFT ANYWHERE

ONE CRANE – DOZENS OF APPLICATIONS

The Konecranes CXT Explorer is an affordable, strong and portable solution for all kinds of lifting needs. This crane follows you practically wherever you need to lift up to 6.3 tons. We have put standard lifting equipment into one ISO shipping container to bring you a predesigned package with a carefully-selected range of standard functions and optional extras.

MOBILE

You can easily transport the CXT Explorer inside or outside. It only takes a few hours to set up or dismantle the crane.

COMPLETE

The CXT Explorer is sold and delivered as a predesigned package, so the delivery process is fast. All of the crane components arrive at your site in one standard ISO shipping container.

SAFE

A stable and reliable crane you can operate from the ground makes your lifting safer and more accurate, and lowers the risk of damage or collision.

SERVICE

Comprehensive service programs, spare parts and fast service response save you time and money.

READY TO LIFT IN A FEW HOURS
You can easily transport the CXT Explorer together with another ISO shipping container. Put the containers on the ground, build the supporting steel structure on top and secure it with twistlocks. Add the crane and plug into grid power or a generator. Now you have factory-level lifting just a few hours after arriving on-site. When you want to relocate the crane, just pack it back into its container and move out.

PRIMARY APPLICATIONS

- Working with large or heavy materials
- Maintaining heavy machinery or equipment
- Loading and unloading tasks
- Moving industrial equipment, vehicles and other items

CUSTOMER AREAS

- Construction
- Mining
- Vehicle maintenance
- Agriculture
- Natural gas compressor stations
- Oil exploration, onshore and offshore drilling
